Ragab Jaafar

Montreal, Quebec, H4N 3B7 | 4383406729 | ragab.jaafar@gmail.com | www.linkedin.com/in/r-jaafar

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with over 6 years of experience in data processing and interpretation. Proficient in online research, data evaluation, and geographic information systems (GIS). Fluent in English and experienced in adhering to guidelines and quality assurance. Multilingual with strong cross-functional team collaboration skills. Passionate about leveraging data to improve digital experiences and enhance AI models. Strong understanding of national and local geography, current and historical business, media, sports, news, social media, and cultural affairs in Canada.

WORK EXPERIENCE

Self-Employed   2019 - Present
Online Data Analyst
- Conducted extensive online research and data evaluation to improve digital content quality.
- Utilized Excel and other data tools to track, analyze, and report data.
- Ensured adherence to guidelines and quality standards in all tasks.
- Collaborated with clients to deliver high-quality, data-driven insights.

Data Analyst   2023 - 2024
ECOM INFORMANT, Calgary, Alberta
- Evaluated and enhanced digital content quality through detailed data analysis.
- Used advanced analytical tools to identify key trends and improve digital experiences.
- Conducted research and evaluation tasks, ensuring data accuracy and relevance.
- Provided data-driven insights to support strategic decisions.

Project Coordination & Customer Service   2020-2022
Les Planchers A&I, Montreal, Quebec
- Coordinated projects and ensured high standards through detailed data tracking and analysis.
- Implemented quality control measures and utilized data to improve service outcomes.
- Conducted research and provided data-driven recommendations to enhance project efficiency.

Geological Engineer   2017 - 2019
University of Science & Technology, Missouri, United States
- Participated in geophysics exploration projects supporting various investigations (geotechnical structural pavement bridge deck utility and archeological).
- Utilized a range of techniques for data acquisition and analysis including Electrical Resistivity Tomography (ERT), Surface Waves (MASW), Seismic Refraction, Ground Penetrating Radar (GPR), and Induced Polarization.

Geophysicist   2011 - 2013
National Oil Corporation, Benghazi, Libya
- Led geophysical surveys using various techniques for successful exploration and production.
- Oversaw Vertical Seismic Profiling (VSP) surveys for detailed subsurface imaging and integrated data to improve geological insights.

- Understood well testing principles including pressure and rate analyses to evaluate reservoirs.

Geophysicist, Intern   2009
Arabian Gulf Oil Company (AGOCO), Benghazi, Libya
- Gained hands-on experience in geophysical data acquisition, processing, and interpretation.
- Applied theoretical knowledge to practical scenarios in the field, enhancing understanding of geophysical survey techniques and data analysis.

EDUCATION

Diploma in Big Data (Part-time) | Concordia University, Montreal, Quebec   2022

Master of Science in Geological/Geophysical Engineering   2017
United States, Canadian Equivalency by World Education Services (WES)

Bachelor of Science in Geophysics and Seismology   2010
Canadian Equivalency by World Education Services (WES)

CERTIFICATIONS & SKILLS

- Data Analysis: Advanced Excel (complex formulas, data visualizations, PivotTables, VLOOKUP, linear regressions), Power BI, Google Sheets, ArcMap, Tableau, Alteryx, R

- Online Research: Proficient in using search engines, online maps, and various web-based tools for data evaluation and research

- Geographical Knowledge: Strong understanding of national and local geography, current and historical business, media, sport, news, social media, and cultural affairs in Canada

- Multilingual: Fluent in English & Arabic, intermediate French & Russian

- Strong analytical and problem-solving skills
